

Product EOL #: EOL-2026-001

Date of issue: 07-JAN-2026

Discontinued Product Part #:

1. See3CAM_130
2. See3CAM_130D

Part description: See3CAM_130 and See3CAM_130D are UVC-compliant, AR1335 CMOS sensor-based 13 MP autofocus USB cameras with iHDR support. These cameras support 4K Ultra HD (3840 × 2160) at 30 fps over USB 3.2 Gen 1 in compressed MJPEG format. They are also backward compatible with USB 2.0; however, when operating over USB 2.0, the cameras support a limited set of resolutions at lower frame rates. The only difference between the two product variants is the lens field-of-view (FOV).

Reason for discontinuation:

We are updating the lens used in the module as it reaches the EOL. As a result of this change, the following products are being discontinued. Please find below the details of the FOV changes along with the corresponding product part numbers.

Product Code	Module PN	HFOV	VFOV	DFOV
See3CAM_130	e-CAM130_MI1335_MOD	60.2°	46.4°	74.4°
See3CAM130D	e-CAM130D_MI1335_MOD	64.62°	49.64°	76.79°

Impact and Support:

The Discontinued Part number will not be available. The customer may refer to the alternate product See3CAM_130E, which is listed on our website. The part number and FOV details of the lens used in alternate part are as below.

Product Code	Module PN	HFOV	VFOV	DFOV
See3CAM_130E	e-CAM130E_MI1335_MOD	61.08°	46.29°	71.69°

Last Time Buy:

The discontinues products are no longer available to buy. It is recommended to buy the alternate product See3CAM_130E.
