e-con Systems Launches Barcode scanning application

Barcode scanner SDK - free binaries with sample application. Bundled with e-con's USB 3.0 camera.

ST. LOUIS, USA and CHENNAI, India — Sep 30th 2014 — **e-con Systems Inc.**, a leading camera systems integrator announces the launch of the [Spica](#) - a barcode scanner application compatible with any Windows OS based platforms, including Windows embedded.

Spica is compatible with any Direct Show camera. Spica supports 2D barcode such as AZTEC, Datamatrix, QR Code and 1D Barcodes such as Codabar, Code 39, Code 128, EAN-8, EAN-13, UPC-A, UPC-E, UPC-E1, 128-A, 128-C, Interleaved 2-of-5 (IFT) and Ext39.

“We have been repeatedly asked by our USB camera customers for a reliable and flexible barcode SDK that has been optimized for our USB cameras. Our Spica barcode scanning software is the solution for our customers who have been looking out for a 1D/2D barcode scanning solution for our USB camera series starting with the [See3CAM_80](#) camera” said **Mr. Ashok Babu, President, e-con Systems.**

The Spica software package includes a SDK which enables customers to develop their customized barcode applications. The SDK includes Dynamic Libraries (both C# and C++) and API Developer Guide. Along with this, e-con also provides Spica camera viewer with barcode decoder sample application for [See3CAM_80](#) – 8 MP USB 3.0 camera.
